- RECONFIGURABLE
- BREACH DOORS/WINDOWS
- SIMUNITION ROUNDS – 9mm and 5.56mm
- PATRIOT ARMOR FABRIC
- MODIFIABLE WALLS/DOORS/WINDOWS
- MALLEABLE MATERIAL

The Patriot Adaptable Training Shelter is based upon a minimum size of 10'W x 10'/20'L. It can be expanded in these increments to as large an area your training site will allow.

All that is required to set up the PATS for 360-degree full SDZ training is to pop-up the overhead structures and begin setting the panels. It takes just minutes to place and attach the heavy-duty Military Velcro wraps and begin training. The set-up configurations are endless, and you can change layouts in just minutes. No other product allows you the ease of use and change as the Patriot Adaptable Training Shelter.

The Patriot Mil-Spec Armor Fabric which is used for both the overhead SDZ and wall panels is a heavy duty, laminated reinforced PVC with high technical specifications and tear strength. It complies with the stringent military specification MIL-C-3006 Type 1, Class 1 and handles 9mm/5.56 Sim rounds with ease. This military fabric is designed to withstand all extreme temperatures and weather. Rain, snow, cold, heat, humidity and more, in any type of situations and weather conditions around the globe.

- Woven polyester scrims for high tear resistance.
- Superior abrasion resistance for longer life.
- 100% Waterproof
- Mildew and UV resistant.
- Flame resistant to Federal Standard 191-5903
- Solid color with optional print screen.
- Camera image transfers, in-theatre, wood, mud wall, street scenes, etc.
