

As **convoy live fire training** and **DC-powered devices** in target emplacements continue to grow, the need to charge the supporting batteries increases. The **PBCS-20** takes your charging station **directly to the range**, field, or a central point on site. The standard configuration allows you to **charge 32 batteries simultaneously** and store over 100 more. **Safer, faster, centralized charging** puts your batteries back to work and **increases training efficiency**.

STANDARD FEATURES

- Power via remote generator or hardwire
- Exterior ports for remote alarm monitoring
- DOD, EPA, & OSHA compliant
- Audio / visual alarms for smoke, hydrogen gas, and emergency assist
- Insulated for operation in various climates
- Heating / cooling system standard
- **Safety features include:** acid resistant coatings, spill containment, emergency eye wash, automatic shut down, reverse arc proof, and an explosion resistant design
- **Optional upgrades:** 40' length, additional chargers, built-in fire suppression, and other customizations to meet specific requirements

Patriot Products, LLC has become a leader in the defense industry by consistently delivering **unparalleled** service, **creative** dialogue, **innovative** product design, and a **collaborative** process.
