

The Patriot Products Granulated Rubber Bullet Trap is the ideal solution for **reducing SDZ** (surface danger zone) while providing a **cost-effective option** for military, law enforcement, federal agencies, and private ranges. This self-contained, flexible solution **maximizes safe training** by capturing rounds intact for **full ballistic containment**, preventing splatter, and limiting lead dust and runoff while reducing impact noise. Fire resistant **3/4" ballistic rubber granules** combine with **10ga galvanized steel plates** to contain rounds from any angle or distance.

STANDARD FEATURES

- Rated for all handguns and rifles up to .308
- Top brow of AR500 steel with 2" vulcanized ballistic rubber panels
- Each lane can accept 70,000-100,000 rounds before lead removal is required
- Side containment of rubber granules
- **Additional options:** dimensions customized to meet requirements, contracts offered for ongoing maintenance and lead recovery and removal, options available from basic unit to fully optioned model, lightning protection, catwalk for easier refilling of rubber granules

Patriot Products, LLC has become a leader in the defense industry by consistently delivering **unparalleled** service, **creative** dialogue, **innovative** product design, and a **collaborative** process.

CUSTOM SOLUTIONS FOR TRAINING EXCELLENCE
